## Charlotte Badger

Charlotte was a defiant, said to be immoral woman who it is thought that, using her feminine energies she incited the mutiny of a crew and took over the ship Venus. She joined the fray with pistol and sword. Having taken the ship and returned a flogging to the captain, she masterminded the pirating of another vessel for supplied and headed on the Venus to the Bay of Islands here in New Zealand.

When she reached the Bay of Islands her fate is not clear. Other than it is believed she became friendly with a Maori chief. What we do know is that Charlotte Badger was a woman of interest, passion, strength, daring, and just a little bit naughty, all of which inspired us here at Charlotte's kitchen.
